

## Credit Card Acceptance with Compliant Surcharge

### Lowers Cost and Improves DSO

Credit card fees decrease your company's net margin, while not accepting credit cards limits your customers' ability to conveniently purchase your products and pay invoices. Digital A/R and order-to-cash technology from Unified automates compliant surcharges on credit card acceptance for a low-cost, efficient accounts receivable workflow.

Eliminates credit card acceptance fees.

Provides E2E A/R transparency, real-time tracking and streamlined reporting.

Drives customer payments to least-cost routing methods.

**We saved \$457,000 in year one with  
Compliant Surcharges on Credit Card Acceptance  
and eCheck processing from Unified A/R.**
